

PRODUCT SPECIFICATION

catalog number:	J31320
product description:	CKMB Antigen, Recombinant
lot number:	[lot specific]
source:	<i>E. coli</i>
form:	Frozen liquid
purification method:	Ion exchange and affinity chromatography
purity:	92.5% by SDS-PAGE
buffer:	50mM Tris-HCl, 5mM β -ME, 1.0 mM EDTA, 5mM $C_4H_4Na_2O_4$, pH 8.0, 50% glycerol
molecular weight:	~43 kD
concentration:	[lot specific] mg/mL (by Bradford using BSA standard)
manufacture date:	[lot specific]
storage:	-20°C to -80°C avoiding multiple freeze thaw cycles.
hazard/biohazard:	There is no known hazard or biohazard associated with this product.
